DACP

Data Access and Collaboration Protocol

Collaborate across autonomous data nodes.

Stream data. Run operators. Coordinate workflows.

AUTONOMOUS DATA

Serve files and SQL tables with pluggable catalogs.

STREAM FIRST

Read bytes or Arrow records. Process data in batches.

COMPUTE NEAR DATA

Java / Scala, Python and native command operators.

COORDINATE WITH UNION

Submit YAML workflows. Monitor tasks, health and traffic.

Scala servers / Python SDK / Shell / mTLS
